Pavillions 2

BROKEN HEAD

Surrounded by rainforest just a short stroll from one of the coast's most beautiful and untouched beaches, Pavilion 2 is described by its owners as a beachside paradise with prestige. The natural colours and low impact design of the inter-connected open plan pavilions blend the inside with the outdoors, making it the ideal haven for entertaining or just simply enjoying nature. It's the best of both worlds, with lush gardens all around, direct access to Broken Head Beach and the buzz of nearby Byron.

Allawah

YAMBA

After holidaying in Yamba for many years, the owners of this property set out to market for an upmarket beachside retreat. Their design brief for the renovation of this century old property, undertaken by Paul Witzig, was "luxury in a casual setting." This was achieved with a mix of old world furnishings and modern living, an extensive use of timber and stone, and a new pool and spa.

👍 "A great space for a beach holiday."
